Corporate Presentation

March 2026

Forward Looking Statements

In addition to historical information, this presentation may contain forward-looking statements with respect to our business, capital resources, strategy and growth, reflecting the current beliefs and expectations of management made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are subject to a number of risks, uncertainties and assumptions, and you should not rely upon forward-looking statements as predictions of future events. All forward-looking statements may be based upon current estimates and expectations about future events and financial and other trends. There is no guarantee that future results, performance or events reflected in the forward-looking statements will be achieved or occur. No person assumes responsibility for the accuracy and completeness of the forward-looking statements, and, except as required by law, we assume no obligation to update these forward-looking statements publicly, or to update the reasons why actual results could differ materially from those or our situation may change in the future.

Forward-looking statements include all statements that are not historical facts and, in some cases, can be identified by terms such as "anticipates," "believes," "could," "seeks," "estimates," "intends," "may," "plans," "potential," "predicts," "projects," "should," "will," "would" or similar expressions and the negatives of those terms. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Forward-looking statements represent our management's beliefs and assumptions only as of the date they are made and are only predictions that may be inaccurate. You should read the Risk Factors set forth in our reports filed from time to time with the Securities and Exchange Commission, which factors may cause our actual future results to be materially different from what we expect.

Highlights

A Bioelectronic Medicine & Wellness Company

Focused on Multiple Indications

- FDA Cleared for the prevention and treatment of primary headache in adults and adolescents
- FDA Authorized for symptoms of Fibromyalgia
- Wellness solution for sleep, stress, focus
- Variety of products, price points, and business models for different end users

Rapidly Growing

- 5-year revenue CAGR of 55% through FY 25 (estimated)

Compelling and Improving Business Model

- ~85% gross margins
- Investing in growth
- Sales and Marketing expense scale with revenue growth (approximately 30% of sales)
- Hired new commercial leadership with vast experience growing revenues in our largest channel, the VA

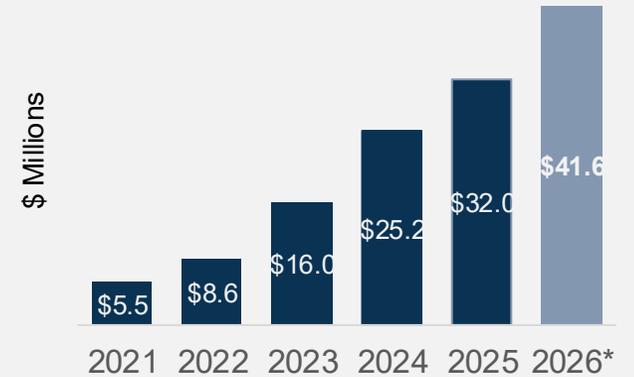

Large and Growing Opportunity¹

- \$20 billion spent annually out-of-pocket for chronic pain treatments
- Primary headache estimated to affect more than 39M adults in the U.S. and 6% of U.S. adults suffer from fibromyalgia
- Expanding into consumer wellness and human performance markets
- Potential label extensions to PTSD, mild Traumatic Brain Injury (mTBI), and others through company owned or distributed products

Financial Results and Select Guidance

- \$32.0 million of revenue in full year 2025
- \$11.6 million of cash, cash equivalents, and marketable securities (“Total Cash”) at December 31, 2025
- 2026 revenue guidance of approx. 30% growth over full year 2025

Revenue

*Guidance as of March 19, 2026

NASDAQ: ECOR

gammaCore

Sapphire™

1st FDA-cleared non-invasive
vagus nerve stimulator

- Fast acting, comfortable, easy to use hand-held option
- FDA Cleared for the prevention and treatment of primary headache in adults and adolescents
- No drug-drug interactions or drug-like side effects
- Can be used as a stand-alone therapy or alongside existing treatments
- Can use multiple times per day or month
- Cost dominance in the first-year when gammaCore therapy is used in conjunction with standard of care as supported by [UK NICE Guidance](#)

Quell® Technology

LEARN MORE

First and only high-dose wearable neuromodulation device for chronic pain

FDA Authorized, non-invasive solution for fibromyalgia, a large, underserved market

- Symptom relief beyond reduction in pain
- Drug free, no significant side effects
- Convenient, personalized treatment

- ECOR expects to leverage its sales channels, particularly the VA Hospital System
- Quell revenue of \$1.5 million since acquiring the assets in May 2025

Quell
Fibromyalgia

For Patients ▾ For Physicians ▾ Contact Us 🔍 [Refills](#) [Get it Now](#)

Introducing a new option for fibromyalgia

Fibromyalgia is a complex health condition that is difficult for patients and challenging for physicians. Quell® Fibromyalgia helps reduce symptoms in patients with fibromyalgia and high pain sensitivity.

Meet the Truvaga Vagus Nerve Stimulators

Truvaga Plus

Truvaga 350

Transform the way you feel with Truvaga vagus nerve therapy. Our proven technology gently activates your vagus nerve, helping your body manage its “fight or flight” response with just a 2-minute session, day and night.

Reduce Stress

Improve Sleep

Restore Calm

Boost Clarity

LEARN MORE

Truvaga™ is a [general wellness product](#) and as such has not been evaluated by the US Food and Drug Administration. Truvaga products are not intended to diagnose, treat, cure, or prevent any disease or condition.

TAC-STIM has been developed with support from the 711th Human Performance Wing Performance Optimization Branch of the United States Air Force to provide:

- Accelerated Training
- Sustained Attention
- Reduced Fatigue
- Improved Mood

TAC-STIM

MADE IN THE USA

TAC-STIM™ is a [general wellness product](#) and as such has not been evaluated by the US Food and Drug Administration. TAC-STIM products are not intended to diagnose, treat, cure, or prevent any disease or condition.

Active Channels With Revenue Growth Opportunities

VA Hospitals	Driving Rx sales in the Department of Defense and Community Care Network through the roughly 1,300 Department of Veterans Affairs and Military Treatment Facilities; Significant opportunity to add fibromyalgia offering to VA channel (40% prevalence ¹)	\$2.9B TAM¹
US Commercial	Investing to drive prescription (“Rx”) adoption in clinic-based systems	\$101M TAM¹
Health & Wellness	Truvaga 350 and Truvaga Plus for general wellness available via eCommerce store; Relaunch of Quell Relief for lower extremity pain in the future	\$33B TAM¹
TAC-STIM	TAC-STIM Human Performance for active-duty military	\$9.7B TAM¹
International	Continued sales in territories with favorable coverage decisions (NHS UK)	

Bioelectronic Technology – Pipeline of Possible FDA Clearances

- Primary headache¹
- Post-traumatic stress disorder (PTSD)^{2,3}
- mild Traumatic Brain Injury (mTBI)²
- Symptoms of fibromyalgia¹
- Chemotherapy induced peripheral neuropathy²
- Lower extremity pain OTC

gammaCore is the only FDA-cleared non-invasive VNS therapy in primary headache

Quell is the first and only FDA-authorized non-invasive therapy for symptoms of fibromyalgia

¹ Cleared indications, ² Investigator Initiated Trials ongoing, ³ Breakthrough Designation

gammaCore (nVNS) currently is FDA-cleared for prevention of migraine and cluster headache, and acute treatment of migraine and episodic cluster headache, as well as the acute and preventive treatment of migraine in adolescents between 12 and 17 years of age

Broad Intellectual Property Portfolio

electroCore owns all intellectual property on which the technology relies

Expansive pioneering IP coverage of peripheral nerve stimulation and non-invasive, transdermal neuro-stimulation in the neck

We have patent coverage extending beyond 2040:

- Non-invasive vagal nerve stimulation for treating a variety of medical conditions or enhancing general wellness
- Electrical signals that pass comfortably through the skin to modulate underlying nerves
- Low-pass signal filtration that reduces painful signal harmonics
- Peripheral nerve stimulation for treating chronic pain
- Dynamic control of stimulation parameters and electrode impedance monitoring
- Wearable stimulation devices
- Growing digital health portfolio

>300

PATENTS AND PATENT APPLICATIONS

~180 issued U.S. patents

~30 U.S. patent applications

~65 International patents and applications

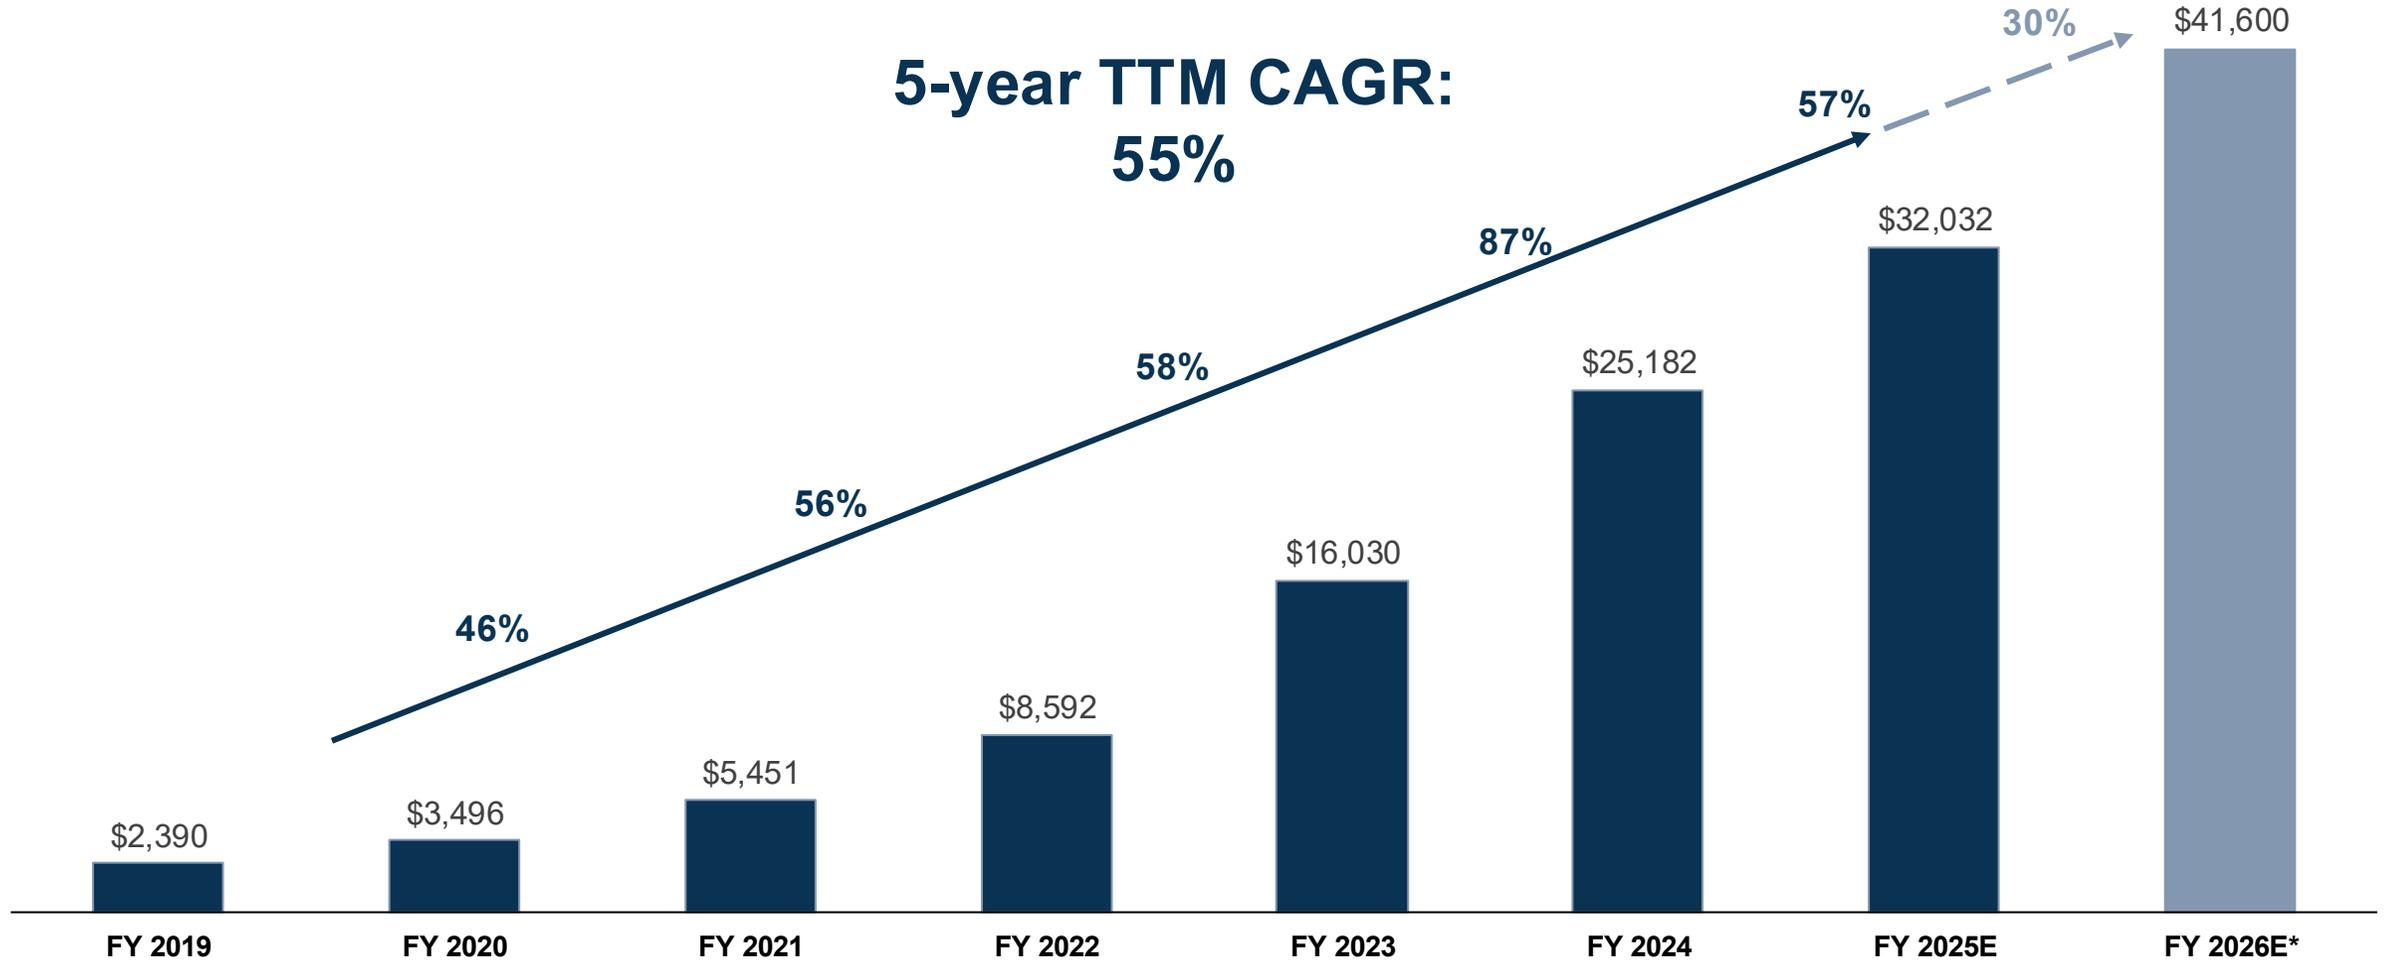

Strategic Pivots

- **Pivot 1: the NeuroMetrix Acquisition**
 - Integration completed ahead of schedule
 - Revenue in our VA Channel exceeding expectations
 - Launch Quell over-the-counter for lower extremity pain in 2026
- **Pivot 2: strengthening our VA Hospital Channel**
 - Carefully adding commercial and field sales talent to fuel growth
 - Leverage published Clinical Practice Guidelines (CPG) for headache, PTSD, and other indications as available
- **Pivot 3: Developing our Wellness business**
 - Improved e-commerce and mobile app technology
 - Leverage AI to improve our e-commerce conversion rates
 - Growing contribution from affiliates at higher Return on Advertising Spend
